

Quick Start Guide

Setting Up Your New Smart TV

This is a quick guide on how to set up your new smart TV.

i The correct steps may vary from this guide depending on your TV's make and model.

Step 1 Unbox and Organize Accessories:

Open the box and remove the included accessories. (Power adapter, remote control, legs, etc). Set the accessories to the side for easy access later.

Step 2: Prepare the TV for Setup

Lay the box flat on a stable surface, ensuring the screen side of the TV is facing up. Carefully remove the TV, ensuring no pressure is applied to the screen.

Step 3: Attach the Legs

Retrieve the legs and attach them to the TV. Some models may require the use of screws to attach the legs.

Step 4: Position Your TV

Place the TV in your desired location with a nearby wall outlet.

Step 5: Connect Your TV to Power

Plug the power adapter into a wall and connect the other end to the power port labeled “DC IN” on the back of the TV.

Figure 1 Connecting the TV to power.

(Optional) Step 6: Connect an HDMI Device

If you plan to connect a cable box or other media device such as a game console, connect an HDMI cable to the device. Plug the other end of the cable to the back of the TV into an available HDMI port.

(Optional) Step 7: Connect to the internet via ethernet.

For a wired connection, plug one end of an ethernet cable into the ethernet port on the back of the TV. Connect the other end to a wall socket or your router.

Figure 3: Connecting your TV to the internet using an ethernet cable.

Step 8: Set Up the Remote

Insert the included batteries into the remote.

Step 9: Power On Your TV

Point the TV remote at the TV. Press the power button located at the top of the remote to turn the TV on.

Step 10: Complete Set Up

Follow the on-screen prompts to finish setting up your smart TV.
